Composition for dance and music:

A 2-day composition workshop focussing on what happens when ideas and techniques which come primarily from music are translated into movement. The sessions will consist of short task-based exercises, often using extreme reduction of possibilities to stimulate the imagination. Questions about how to find material, how to keep something going, what makes a strong or a weak change and other compositional 'problems' will be discussed.

Matteo Fargion is a composer, performer and teacher (PARTS) who has worked in the dance and theatre world for over 3 years. He is best known for his on-going collaborations with Jonathan Burrows.

On 17th, 18th, 19th March 2017 Burrows and Fargion will present a retrospective of their work in Mercat de les Flors.
